

The Fire & Ice SPA, like the eponymous film, is a cornucopia of sensory impressions. It is a place where the body and soul achieve harmony. The deep blue water of the Séracs pool (indoors) and Ogiven pool (outdoors) reflects the power of the Grindelwald glaciers. On the panoramic terrace you can literally feel the elements of nature and breathe in its beauty.

In the tradition of the region's skiing and mountain sports pioneers, the Uphill Only fitness centre encourages you to recharge your batteries or overcome your own limits. It is the place to acquire the tools for your next challenge.

Inspiring scents and colours in the Mystic Atrium Garden enliven all the senses and exude the charm of the wilderness. Here, the healing power of traditional mountain herbs and Alpine plants reaches to the sky.

The Fire & Ice SPA is a source of new vital energy: the power of the mountains contains so much primal energy. We always enjoy hearing the stories of the pioneers and mountaineers and feel a sense of deep relaxation following our own personal adventures. Time to close our eyes and listen to the sound of silence.

We set off on a journey of discovery with an eagerness to explore and all our senses awakened: To feel the pleasantly cool stones under our feet, experience the mysteries of the mountain world, inhale the fragrance of alpine herbs.

Time to close your eyes and listen to your body. A SPA stay that lasts longer and creates precious memories.
